INDUSTRY NEED FOR A HIGHLY SKILLED WORKFORCE

• Highly skilled workforce

• Maintaining high safety standards

• Consequences
  o Recruitment of staff with a poor mix of foundation generic skills and trade specific skills
  o Risk of poor quality workmanship
  o Lowering of overall quality and safety of vehicles being manufactured, serviced or repaired
  o Consumer complaints

Cabinet making

Metal Fabrication

Solar panel installation

Welding
“My assessment process with TAFE Queensland was very thorough and very relevant to the work that we do. These qualifications will be a massive help to our industry and will give us a lot more flexibility and a more professional workforce.

This training will also provide us with a more qualified pool of workers to draw from when trying to replace retiring workers or when extra staff are needed after a hail storm which is when work can get really busy.”

Brett Murray
Insurance Manager
Suncoast Caravan Service
