Deputy Director-General, Engagement
Department of Employment, Small Business and Training
Skills for Queensland: Great training for quality jobs

*Skills for Queensland* sets the Queensland Government’s policy agenda for skills.

It will secure our future prosperity through a skilled and adaptive workforce.
Skills for Queensland outlines six key themes to ensure Queensland has the skills base required for current and future jobs.
The public provider is an essential component of a healthy VET system, particularly in regional areas.

We will support a strong system of quality providers offering choice and flexibility and focused on the needs of industry, employers and students.
Students need access to fit-for-purpose high-quality training facilities to build the skills that workplaces need.

We have developed 14 regional plans to outline the Queensland Government’s investment in training infrastructure.
Young Queenslanders under 21 can now access fully subsidised training in apprenticeships or traineeships in priority areas such as electrical, plumbing, engineering, and early childhood, aged and disability care.
Better pathways to VET

- Free tafe for Year 12 graduates
- Gateway to Industry Schools program expansion
- Link and Launch pilots
- Improved digital resources about career pathways and VET
- New industry engagement framework for schools
The journey continues

Skills for Queensland implementation plan publicly released later in the year.
